

Redefining success with at risk youth.

Our Mission

The mission of the Elevate Academy Network is to offer at-risk students throughout Idaho access to outstanding career technical schools that inspire, engage, and ignite their passion.

#nextstepready

Our Core Tenets

Every Elevate Academy is built on six core tenets

**Community
Driven**

Beat the Odds

Mastery-Based

**Career Tech
Focus**

**Opportunity
Driven**

**Integrated
Purpose Driven
Curriculum**

ENGAGE

INSPIRE

IGNITE

The Problem

Elevate Academy Network seeks to address two major challenges facing Idaho and, by linking them, create a new solution.

Far too many Idaho students finish high school uninspired, unskilled, unemployed, and lacking hope.

Many industries face a massive shortage of talent that hinders Idaho's economic vitality.

Elevate Academy Network prepares high school graduates with the mindsets and career technical skills to thrive in industry and fuel Idaho's workforce needs.

Our Vision for Our Graduates

Our goal is for Elevate graduates to become career leaders - industry certified, engaged, productive professionals with broad options.

INSPIRED

- Self-Empowered Learner
- Planning for Next Steps in Career or College

IGNITED

- Community Contributor
- Effective Communicator & Innovative Problem Solver

ENGAGED

- Applies Academic Content, Technical Knowledge & Workplace Skills
- Attends to Their Physical, Financial, and Social Emotional Health

Placement Breakdown

Top Industries by Graduating Seniors

● Construction	24%
● Welding	3%
● HVAC	3%
● Electricians	3%
● College/Trade School	29%
● Various Businesses	20%
● Military	1%
● Restaurants / Food Production	18%

Our Intended Impact

We aim to redefine what's possible for at-risk students across Idaho. Over the next five years, we will:

- Launch five new schools, growing to a total of eight
- Serve ~4,500 students at full capacity
- Place 100% of our graduates in strong industry jobs, college, or the military
- Redefine the possibilities for CTE and share our model with others to inspire broader change

The Need In Idaho

- The statewide graduation rate is 81%
- Less than half (48%) of high school graduates enroll in college. That means 11,000 high schools graduates each year do not go to college. *We must* create a pathway for them to thrive as adults.

Our Promise

- There is genius in every student....It is our job to help them find it!
- We will measure what matters.
- Commitment to our local communities.
- Create opportunities for all students.
- Design Integrated purpose driven curriculum to inspire students.
- Empower Teachers
- Create strong relationships with families.
- Create strong relationships with industry.

Our Challenges

- Facility Funding
- Meeting the Demand
- Talent
 - Leadership
 - Teachers
 - CTE
 - Classified
 - Special Education
